PROFESSIONAL EXPERIENCE

ZeroFox

Platform Operations/Platform Specialist

Baltimore, MD

Nov 2017 - Present

- Utilized AWS, Google Drive, JIRA, Keybase, Slack, the ZeroFOX platform, and a series of Python scripts to streamline the process of successfully carrying out takedowns of imminent threats to clients' identities and brands
- Executed the removal/takedown of profiles/content that violates terms of service on Facebook, Instagram, Twitter, Google+, Youtube, LinkedIn, Pastebin, Slack, and more
- Analyzed the inefficiencies and pain points of the current takedown workflow and built a series of Python scripts to further expedite and automate this process cut down takedown time in half
- Built out client profiles to optimize algorithmic success in identifying threats to clients. Conducted weekly "Health Checks" on client accounts with respect to algorithmic optimization that the current profile information allowed for
- Automated the Health Check system by using different queries pulling information from API with python, increasing efficiency by 75%
- Configured rules and policies to alert for malicious and/or negative social media content for clients
- Created and maintained Foxscripts (Java) to appropriately identify harmful social media content
- Published research regarding Security on Social Media networks. Mentioned by WIRED, CNN, and many other popular sources
